EDUCATION

Harvard University, Cambridge, MA

Expected May 2027

A.B. Honors, Computer Science; Secondary in Philosophy; Citation in Chinese Language. GPA: 3.96/4.0.

Relevant coursework: AI Safety and Governance, Machine Learning, Ethics and Technology, Big Data Analysis, Data Structures and Algorithms, Abstraction and Design.

RESEARCH EXPERIENCE

MIT Laboratory for Financial Engineering — Research Intern, Prof. Andrew Lo

May 2026 – Present

- Building an LLM-as-judge evaluation pipeline to benchmark frontier models' ability to assess financial-advice suitability and regulatory compliance.
- Modeled LLM-generated financial advice as distributions to surface intra-family signal.

Harvard LIT Lab — Research Intern, Prof. Bertrand Schneider

Aug 2025 – Present

- Developing an AI chatbot to support self-regulated learning in students.
- Designing survey instruments to measure AI-assisted writing habits among secondary-school students, building experience with human-subjects study design in educational settings.

Harvard Law School Access to Justice Lab — Research Intern, Prof. James Greiner

Jan 2025 – Jan 2026

- Authored literature reviews on improving efficient allocation of scarce legal-aid resources, including applying military-triage principles and surveying potential areas for AI use.
- Collected bail-process data across U.S. jurisdictions through interviews with district attorneys.

PROJECTS

Evaluating Orthogonal Projections as Vector Embeddings (CS2881R)

Fall 2025

Evaluated a computationally efficient vector-embedding method for semantic classification and misinformation detection using LLM-generated embeddings.

Examining Subliminal Learning in LLMs (CS2881R)

Fall 2025

Replicated and extended Subliminal Learning: Language Models Transmit Behavioral Traits via Hidden Signals in Data (Cloud et al.).

Library of the Futures (CS1710) — *Awarded CS1710 Best Project*

Fall 2025

Built an interactive data-visualization site covering 100 years of science-fiction film, using Python, JavaScript, HTML/CSS, and D3.

MusicMIDI (HackMIT Education Track)

Fall 2024

Built a Python MIDI sequencer in Pygame with integrated LLM features, aimed at improving access to music theory and composition in under-resourced schools.

TEACHING & COMMUNITY ENGAGEMENT

Taiwanese Cultural Society — Treasurer

Jan 2026 – Present

Manage club budget and bank account, organize social events and foster engagement through cultural celebration.

Chinatown Afterschool Program, Cambridge, MA — Grade Coordinator (K–Grade 3)

Aug 2025 – Present

Plan weekly curriculum and project materials and lead tutoring for early-elementary students.

Harvard Radcliffe Dramatics Club — Music Director / Assistant Music Director

Jan 2025 – Present

Teach vocal music and provide musical direction for productions including Jesus Christ Superstar, The Addams Family, Merrily We Roll Along, and Rent.

Phillips Brooks House Association — Treasurer, Board of Trustees

Jan 2024 – Aug 2025

Managed a \$5.3M budget with fiscal-monitoring and decision-making responsibility.

INTERNATIONAL EXPERIENCE & LANGUAGE

Mandarin Chinese — proficient in reading, writing, and speaking.

Study Abroad: National Taipei University, Taiwan — coursework in Chinese language and culture (Summer 2024).

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript, HTML/CSS, R, OCaml

Libraries & Tools: OpenRouter, PyTorch, TensorFlow, NumPy, Matplotlib; Git, VS Code, Google Colab

Courses Completed: MIT Executive Education Artificial Intelligence for Financial Services: Tools, Opportunities, and Challenges (Jul 2026); ARENA Transformer Interpretability Online Course (Jul 2026)

HONORS & ADDITIONAL ACTIVITIES

Detur Book Prize (2025) *Awarded to sophomores in high academic standing* · John Harvard Scholar (2024) *Awarded to top 5% of class*
AI Safety Student Team · Asian American Dance Troupe

Interests: science fiction, baking, hiking, classical and musical-theater performance.
